Senior Secondary CBSE- CGPA - 6.7                    2007-2021

## Projects

### Crypto Price Tracker

**Tools** – React, Framermotion

- Integrates with leading cryptocurrency APIs to deliver up-to-the-minute price updates and market data.
- Offers a user-friendly interface for enthusiasts, traders, and investors to monitor the market dynamics of digital currencies like Bitcoin, Ethereum, and thousands of other coins.
- Allows tracking of up to 100 cryptocurrencies, with real-time data on prices, market caps, and changes.Utilizes for interactive visualizations of market caps, and trading volumes.

### Today Task

**Tools** – React, JavaScript, Tailwindcss, Framermotion HTML

- Create, edit, and delete tasks with up to 90% fewer clicks compared to traditional task management tools. Supports categorization and prioritization.
- Reflects task changes instantly, ensuring that updates are visible in real-time with 0-second delay.
- Built with Tailwind CSS for a layout that adapts seamlessly to all devices and screen sizes, achieving a responsive design on 100% of supported devices.

### Coffee Shop

**Tools** – HTML, CSS, JavaScript

- Developed a responsive and visually appealing website for a fictional coffee shop, showcasing products, menu, and store information.
- Created an engaging user interface with custom styling, smooth transitions, and interactive elements like a dynamic navigation bar and image gallery.
- Ensured cross-browser compatibility and optimized layout for mobile, tablet, and desktop devices.
